

Business Paradigms for integrated operations

Goals

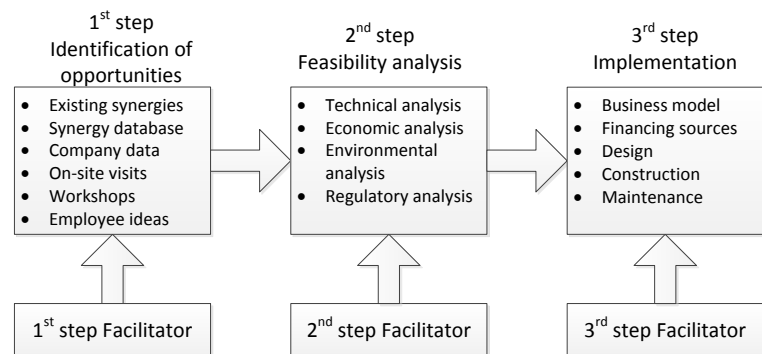

- Examine current commercial procedures within Industrial Parks
- Propose a shift to new paradigms of LOCIMAPs

Approach Taken

- Analysis of various case studies of Industrial Symbiosis

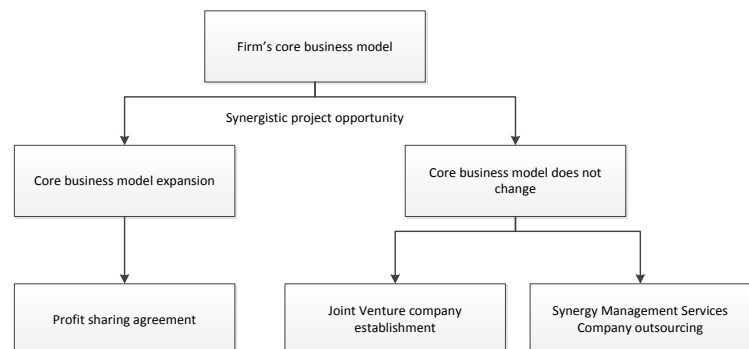

Results

- Three-step process for synergy development

- Three business model routes for firms in synergistic projects

- Park operators could act as facilitators and offer Synergy Management Services

- Carbon Capture and Storage (CCS) Integration Opportunities within the Integrated Park

Lead Partner and other Principle Contributors

- **Lead partner:** INSEAD
